MAJOR RENOVATIONS

- Poe looks a little different for the opening of this school year. All classroom wings and the cafeteria have been completely renovated. Canopies with brick columns have been added to the front of the school and gym area. The modular classrooms or "villas" have been removed from the campus. In place of the villas, the walking track has been regraded and two new playground areas have been added. The gym has a new roof and some storage space has been added.
- The major renovation is part of the 2006 school construction program. The \$13.5 million project includes renovation of older classrooms, corridors, and toilets. The project renovated kitchen and support services and Media Center, replaced windows and provided canopies for student drop off.
- The completed project will add 3,690 new square feet and provide a school facility of 69,063 gross square feet.
