

October 25, 2016

Dear Fuquay-Varina High School Parent(s)/Guardian(s),

We would like you to be aware of a lockdown drill we conducted at school today, October 25th, 2016. Our purpose for a lockdown drill is to practice and continue to improve emergency response and preparedness.

Schools may go into lockdown as a response to an emergency situation. For example, local law enforcement officials investigating events in the community near a school may deem it necessary to issue a lockdown if they feel that the external event potentially provides a threat to that school. After conferring with WCPSS security staff and/or local law enforcement, the decision may be made for that school to enter into a lockdown until conditions return to normal.

We conduct lockdown drills so that faculty, students, and our community are familiar with these procedures. By working with local law enforcement agencies and WCPSS security staff, schools are better prepared to handle the unexpected.

If you have any questions, please call the school at (919) 557-2511. Thank you for your support of FVHS.

Sincerely,

Jonathan Enns, Principal
Fuquay-Varina High School

“The mission of Fuquay-Varina High School is to foster student learning where success is the only option.”
