

# What Causes Cancer?

**Active Reading Strategy:** As you read, collect evidence - one textual support and one paraphrase - and record in the graphic organizer below.

**Thesis:** Cancer is a disease that is caused by several factors including a person's **genetic predisposition** as well as the **environment** that a person is exposed to.

	<b>Genetic Predisposition</b>	<b>Environment</b>
<b>Article Title: Cancer Cluster</b>	<p>Textual Support:</p>    <p>Paraphrase:</p>	<p>Textual Support:</p>    <p>Paraphrase:</p>
<b>Article Title: Fortune Teller</b>	<p>Textual Support:</p>    <p>Paraphrase:</p>	<p>Textual Support:</p>    <p>Paraphrase:</p>
