

MCHS Optional AP Chemistry Boot Camp

Purpose: Help students review concepts learned in Honors Chemistry so that all MCHS Students who are taking AP Chemistry will feel ready when school begins.

Rationale: Some students have had a whole school year between Honors Chemistry and AP Chemistry and likely have forgotten a lot. I would like to help them “catch” back up.

Summer Assignment: Has been posted on the school website and covers what I expect students to know when they arrive on the first day of school. If the accompanying videos and the review problems are not enough of a review, I want the students to have an opportunity to meet with me and review in person.

When & Where: We will meet August 7-11 in room 2200 from 9am-12pm.

Agenda: We will review the concepts in the review packets of the summer assignment and review some labs from honors chemistry. There are labs that I want to make sure students remember from Honors Chemistry when I refer to them in class, but we will not have time during class to perform them again.

How do I Sign Up? I have created a Google form which you can access using the following url: <http://tinyurl.com/apchembootcamp>. Please fill it out no later than July 30, 2017 so I know how many students are planning to attend.

MCHS Chemistry Review Camp is completely optional. You will not be penalized if you are unable to attend. You will still have to complete your Summer Assignment either way. I will be available for after school tutoring once school begins to help anyone who feels they need it. Not attending the review camp will not negatively hurt your AP Chemistry experience. I just wanted to provide students with the opportunity to review with me before school began, if they would like to. If you need to contact me, please do so at jkubacki@wcpss.net. I look forward to a challenging and fun semester in AP Chemistry with you!

Mrs. Kubacki
