

**GRANTS ADMINISTRATION ANNUAL
SUMMARY REPORT: 2000-01**

Authors: Jackie Sorrell and William L. Carruthers

Abstract

The Grants Administration and Compliance Reporting Office in the Wake County Public School System was established in the 1985-86 school year. A principle responsibility of the office is to secure public and private funding. Two hundred and eighty-seven grant applications were prepared in the 2000-01 school year; 125 (43.6%) of the applications were awarded for approximately \$62.9 million. Major projects undertaken and awards received include the Magnet Schools Assistance Program (\$7.5 million) and Alternatives to Suspension (\$1.9 million). The greatest number of grant applications submitted to any single funding source was 186 to Wake Education Partnership. The majority of grant proposals (77.7%) and grant awards (53.6%) were with agencies other than governmental bodies. The full report provides details on grant applications and awards for the 2000-01 year.

GRANTS ADMINISTRATION BACKGROUND

The Grants Administration and Compliance Reporting Office (GA) in the Wake County Public School System (WCPSS) was established in the 1985-86 school year, following a review of WCPSS finance and administrative functions conducted by Arthur Andersen & Company. One finding of the review was that a dedicated grant administrative function "...should be able to increase the monies made available to the WCPSS and avoid program mismanagement."

In 2002-03, compliance reporting functions were added as a responsibility of the Grant Administration office.

RESPONSIBILITIES

A principle responsibility of the GA office is to secure public and private funding through entitlement and competitive grant opportunities in ways that are consistent with school district priorities, applicable regulations, and relevant research findings. This responsibility includes the following functions:

- Identify grant funding opportunities and communicate these to WCPSS personnel;
- Advise the Board of Education of grant funding opportunities and secure approval to submit applications;
- Assist WCPSS personnel with preparing and submitting grant applications;
- Conduct training programs for WCPSS personnel on grant development and management;
- Interpret federal, state, and local rules and procedures governing grants;
- Monitor grant programs for compliance with program and statutory regulations and ensure compliance with federal and state data reporting requirements; and
- Work with appropriate departments including Information Systems, Human Resources, Curriculum and Instruction, Due Process, and Student Support Services to ensure that data are collected, compiled, and reported in an accurate and timely manner to comply with federal and state reporting requirements.

PURPOSE OF ANNUAL REPORT

Every year, the GA office prepares a summary of grant development activities for the previous year. This report describes major accomplishments of the GA office along with systemwide grant development activities in the 2000-01 school year. The report enumerates the number and variety of grant applications submitted to various funding sources by central office personnel, school-based personnel, and others on behalf of WCPSS. Through this enumeration, the report is an account of the **effort** expended systemwide to prepare and submit grant applications, as well as the **success** with winning grant awards. The report is not a financial accounting of grants managed by WCPSS. The dollar amounts noted for individual grant applications and awards are based upon information collected from WCPSS Budget Department and figures reported to the GA office by groups and individuals submitting grant applications.

MAJOR ACCOMPLISHMENTS in 2000-01

- 287 grant applications were prepared and submitted to federal, state, county, and private funding sources in the 2000-01 school year, and 125 (43.6%) of these applications were awarded. Approximately \$62.9 million in grant funding associated with these applications was received in the 12-month period following receipt of the 125 grant awards, representing a 3.6% increase compared to the 1999-00 year.
- Major grant projects undertaken and awards received during the 2000-01 year included:

- The first half of the year was devoted almost entirely to developing the Magnet Schools Assistance Program grant application (CFDA # 84.165A). This application to the United States Department of Education is without question an exceptionally challenging and labor intensive proposal to write. In part, the challenge is due to how significant this grant program is to the school district. Magnet schools have long been an important option offering choice to parents in the district, and the WCPSS takes the opportunity to win each successive grant offering very seriously. The challenge is also due in part to the complex regulations that govern the Magnet Schools Assistance Program, as well as the fact that there is no page limit placed on the application. The application that was prepared in 2000-01 numbered almost 600 pages of text and another 300 pages of appendices. Together, the Grants Administration office, Magnet Schools staff, school-based staff, and others invested literally thousands of hours preparing the application. The cost of preparing the application (e.g., consultants, training conferences, computer workstations, printing, etc.) was in the \$30,000 to \$50,000 range. For all this effort and cost, WCPSS was successful, learning in the summer of 2001 that it was awarded a \$7.5 million award.
- In contrast to the Magnet schools grant application, an application to the United States Department of Education for the Alternatives to Suspension grant program (CFDA # 84.184M) took two people approximately six days to prepare. This proposal resulted in an award for \$1.9 million, and the project proved to be very successful over the years it operated. Transition counselors employed through the grant have been able to assist students on long-term suspension maintain connections to the educational experience while serving their suspension, and better prepare these students and staff for the students' reentry to public education.
- An application to the North Carolina Governor's Crime Commission was awarded for \$100,000 to the WCPSS Helping Hands program to expand mentoring activities to middle school students. Originally developed out of a grant award from the Z. Smith Reynolds Foundation, Helping Hands provides African-American male students with African-American adult male mentors, and the expansion to middle school affords these students greater continuity of support services over time.
- The GA office continued to implement the Federal Personnel Activity Reporting System, monitoring employee time and effort. A total of 421 employees with salaries funded in whole or part with federal funds were documented during the Spring 2001, representing an increase of 68 employees (19.0%) over the 353 employees documented in the Spring 2000.

The greatest number of grant applications submitted to any single funding source was 186 applications submitted to the Wake Education Partnership (WEP). The WEP awarded grants to 40 (22%) of these applications, totaling approximately \$70,000. The WEP conducted a major marketing campaign initiative, which resulted in the increased number of applications relative to the year before. Unfortunately, fewer awards were made compared to the previous year.

Figure 1
Number of Applications to Wake
Education Partnership and Total Amount
of Awards

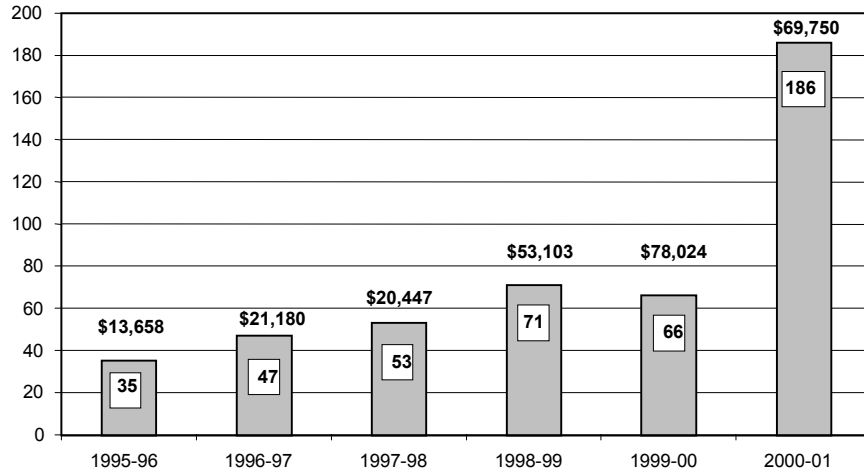

Figure 2
Summary of WCPSS Grant Application Effort and Success: 1997-98 through 2000-01

Description	1997-98 (1)	1998-99	1999-00	2000-01
Applications submitted (effort)	242	240	248	287
Applications awarded (success)	162	181	206	125
Total amount of funding requested (2)	na	\$ 80,347,713	\$ 81,637,093	\$ 89,752,135
Funding level of proposals awarded (3)	\$ 43,692,199	\$ 50,542,438	\$ 60,703,663	\$ 62,913,116
Percentage of funds awarded	N/A	62.9%	74.4%	70.1%
Percentage of proposals awarded	66.9%	75.4%	83.1%	43.6%

- (1) Figures from the 1997-98 Grants Administration annual report have been adjusted to include Wake Education Partnership, making this year comparable to the 1998-99, 1999-00 and 2000-01 years.
- (2) "Total amount of funding requested" reflects the total amount requested in the original grant application, whether for a single year project or a multi-year project.
- (3) "Funding level of proposals awarded" reflects only the amount received in the 2000-01 school year of this report.

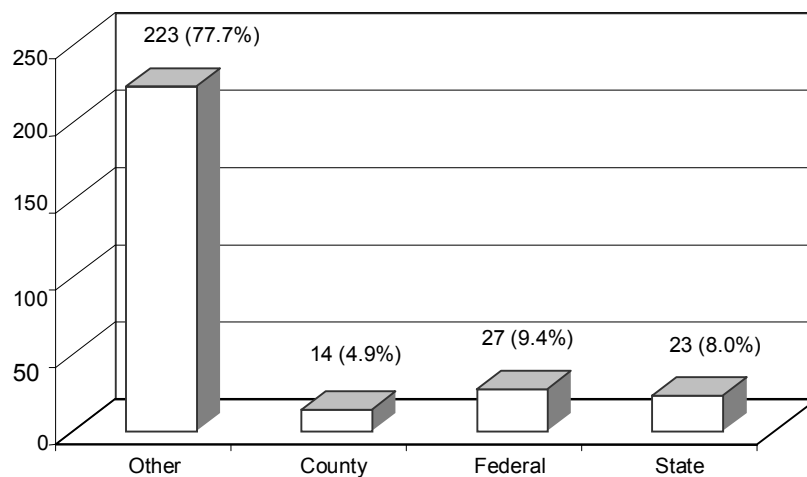

Figure 3
Funding Source, Funding Level, and Type of Grant: 2000-01

Funding Source	Funding Type	Number of Applications	Funding Level
Federal Governmental Agencies	Entitlement	13	\$ 18,413,017
	Competitive	13	\$ 10,697,128
	Collaboration	1	
State Governmental Agencies	Entitlement	5	\$ 31,608,817
	Competitive	18	\$ 601,017
County Governmental Agencies	Competitive	14	\$ 1,087,235
Other Agencies *	Competitive	222	\$ 507,402
	Collaborative	1	\$ 8,500
Totals		287	\$ 62,923,116

* Note: Other Agencies includes foundations, corporations, businesses, professional associations, and the like.

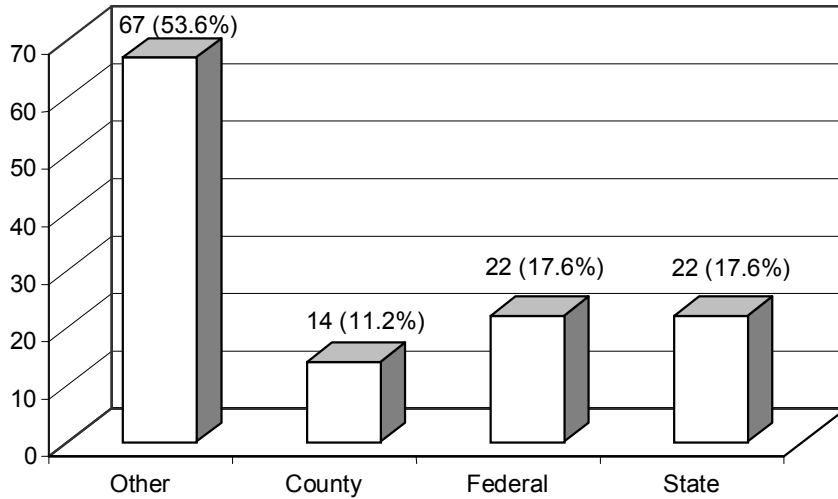

Figure 4 demonstrates that the majority of grant proposals (77.7%) were submitted to agencies other than governmental bodies, including community foundations, corporations, and professionals associations (e.g., Wake Education Partnership, North Carolina Electric Cooperatives, North Carolina Arts Council, National Science Teachers Association).

Figure 4
Number of Proposals Submitted by Funding Source (n = 287)

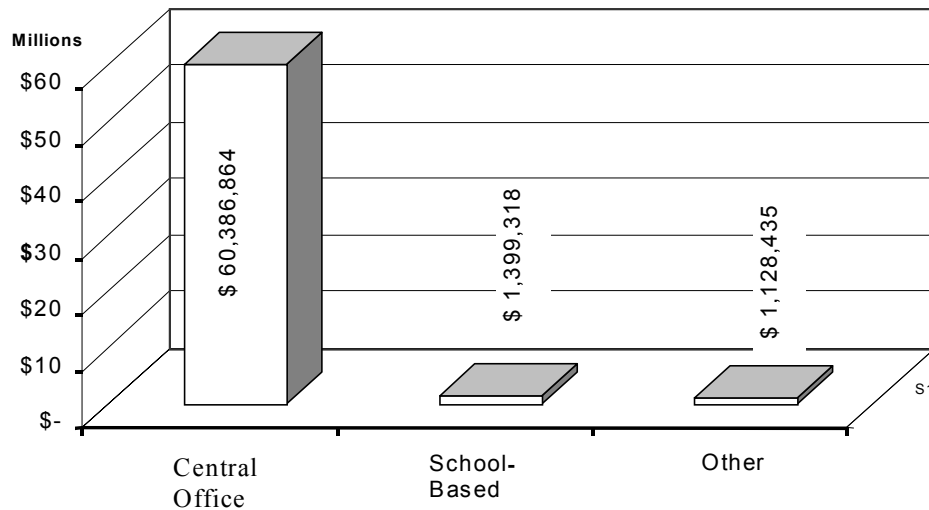

Consistent with the information depicted in Figure 4, Figure 5 indicates that the majority of grant awards (53.6%) were received from agencies other than governmental bodies. Most of the grant awards from "Other" agencies are school-based grants for relatively small amounts; 66 (98.5%) of the 67 "Other awards received were for \$2,500 or less.

Figure 5
Number of Proposals Awarded by Funding Source (n=125)

While most grant applications are prepared by and most awards received by school-based personnel, Figure 6 shows that grant funds received by the district are overwhelmingly secured through central office-based grants. Large federal entitlement grants (e.g., Title I and Special Education) and federal discretionary grants, (e.g., Magnet Schools Assistance Program and Alternatives to Suspension) account for most of the grant funds received by the school district.

Figure 6
Amount of Grant Awards by Operational Site

SCHOOL GRANTS CONTACT PROGRAM

The School Grants Contact (SGC) program encourages each school to identify one staff member to serve as a liaison with the GA office. The main responsibilities of the SGC are to receive communications from the GA office about grant opportunities, distribute this information to school staff, and advise school staff of district policies and procedures pertaining to the submission of grant applications. Those with the interest often assume lead roles at their school with assisting school staff to prepare grant applications. All WCPSS schools identified an SGC in the 2000-01 year.

SGC meetings are conducted for the purpose of sharing specific information about pending grant opportunities. Historically, these meetings have been conducted after regular school hours at a central location, and attendance has typically ranged between 5-10 individuals per meeting. In the 2000-01 school year, meetings were held bi-annually at the Webster Center.

With SGC participation being relatively small, considerations for the 2001-02 school year are to provide one-on-one training upon request at the convenience of the School Grant Contact, to make greater use of email distributions to the SGCs, and to continue the promotion of the Grants Administration intranet web site.

APPENDIX A: GRANT APPLICATIONS BY WCPSS COST CENTER

The following appendix provides details on the 287 grant applications tracked for the 2000-01 year, indicating the cost center submitting the grant, the funding agency, and the eventual award.

Responsibility for Management:
