

Family and Consumer Sciences Education
80 Hour Teacher Induction Program
Plan for 2007 – 2008

Each module is designed to stand alone and to be independent of other modules; thus, participants may enroll in the series at any point and take the series over time. Topics are repeated annually. For optimum effectiveness, participants are encouraged to enter the series at Module 1 and complete the series in one school year. When they enter the series, participants are provided a form for recording attendance as documentation for licensing purposes. For further information, contact Janis P. Meek at (919) 807.4014 or at Jmeek@dpi.state.nc.us .
