SUMMARY AND DETAIL

PART 4: LEGEND AND NOTES

- (1) Local and non-course requirements are not considered in this analysis, they must be reviewed separately.
- (2) Courses in progress are assumed to be completed and passed.
- (3) Courses scheduled to be taken do not contribute to this analysis.
- (4) Besides the requirements listed under each section of part 3 ("UNC Minimum Admission", "College Preparation", etc.) the student is also required to graduate.
Review the "Graduation with Diploma" section in Part 3 for the complete detail of pending Course requirements, if any.

FLAG	DESCRIPTION	EXPLANATION
A	Course in progress	the course has started but no final mark has been assigned.
B	Scheduled course	the course has not started but the student is enrolled.
C	Invalid course	the course had been invalidated by the State at the time the student took it; the course and its credits are ignored.
D	Low academic level	the course has an academic level lower than the Standard Version; the course and its credits are ignored.
E	Course taken prior 9th grade	the course was taken in a grade prior to 9th grade; the course meets the Course requirement but does not contribute toward the corresponding 09-12 credit requirement for the Area and is therefore not included in GPA.
F	Special course	the course was defined by the school to supersede the State definition.
T	Elective requirement added	one or more required courses were taken prior to the 9th grade; an Elective requirement was added to fulfill the 09-12 credit requirements for the Area.
U	Elective requirement increased	one or more required courses were taken prior to the 9th grade; the Elective requirement was increased to fulfill the 09-12 credit requirements for the Area.
V	Includes special courses	the student was enrolled in one or more special courses for this Course requirement; the credits are distributed according to the school definition.
W	Extra credits - Level II course	the credits exceeded the number needed for the Level II Course requirement; the excess credits were applied to the corresponding Level I requirement in the same Area.
X	Extra credits - Area Elective	the credits exceeded the number needed for the Course requirement; the excess credits were applied to the Elective in the same Area.
Y	Extra credits - Electives	the credits exceeded the number needed for the Course requirement; the excess credits were applied to an Elective in the Electives Area.
Z	Requirement manually defined	the school defined the status of the student for this Course requirement; the calculation results for this requirement are ignored.

Percentage	100.0	60.0	20.0	0.0	0.0	0.0	0.0	20.0

1. Students graduating with a Certificate do not achieve a Course of Study and therefore are not included in Course of Study statistics.
2. Figures under "Overrides" (Part 1) include all graduates meeting one or more of the following conditions:
 - a) the school defined their status for at least one requirement;
 - b) one or more courses in their course workload have been modified to meet a requirement other than its default;
 - c) their Course of Study/Career Pathway in the data base is different from the results of the analysis.
3. Figures under "Students defined manually" (Part 3) include all graduates meeting the following conditions:
 - a) their graduation document is a Diploma;
 - b) their Course of Study/Career Pathway in the data base is different from the results of the analysis.

1. An asterisk (*) under the "Graduation Document" column indicates that the student graduation is unofficial. His/her official graduation is expected to occur after the date this report was printed.
2. The "Course of Study" columns list both the "Course of Study" and the "Career Pathway" codes for the student.

...continued

SUMMARY AND DETAIL
GRADUATION DETERMINED AS OF 05/29/01

PART 5: EXPLANATION OF FLAGS

A CERTIFICATE GRADUATE - EXCLUDED

Students awarded a Certificate are not considered to have achieved a Course of Study; therefore they are excluded from Course of Study statistics. The achieved Course of Study listed reflects only the analysis of the student's course workload. The "Post Course of Study" process does not post Course of Study/Career Pathway codes for Certificate graduates.

B STUDENT WITH STUDENT OVERRIDE

One or more Course/Career Pathway requirements have been identified as met for this student through the "Student Overrides" on-line function.

C STUDENT WITH COURSE OVERRIDE

The student's course workload includes one or more courses which have been modified through the "Course Overrides" on-line function to meet a requirement other than its default.

W INCOMPLETE INFORMATION, ASSUMED GNRL

A "Diploma" code is posted in the student's Entry/Withdrawal record, yet course information for the student is insufficient to calculate a Course of Study achieved. Since a Diploma code indicates that the student has met graduation requirements, a "General" Course of Study is assigned as a default.

X INCONSISTENT GRADUATION DOCUMENT

A "Certificate" code is posted in the student's Entry/Withdrawal record, yet the system calculated a valid Course of Study. Verify the graduation document.

Y INCONSISTENT CAREER PATHWAY

The Course of Study and Career Pathway on the data base are inconsistent or blank. Review the student's information.

Z INCONSISTENT ANALYSIS

The student's Course of Study/Career Pathway is printed in the "Achieved" column as it is in the data base; however the analysis of the student's course workload produced the result listed with this message. This process assumes that the information in the data base was manually defined, therefore no change was made. Review the student's information.

This message says that an achieved course of study was manually entered for the student and that the calculation produced a different result. See Erin Freeman on the previous page – the calculation produced a GNRL course of study; CP had been manually entered.
