

Trade & Industrial Education Staff Development for Provisionally Certified Teachers

Plan for 2007 – 2008

DESCRIPTION:

East Carolina University Continuing Education Division has developed, and will administer, 30 hrs of the required 80 hour T&I Induction program. ECU's courses consist of three 10 hr online modules. Teachers will contact ECU for enrollment and will work through them for completion of 30 hrs of **Core Components**. CareerSafe will provide the 10 hrs of online safety training.

In addition to the 40 hours of Core Components, teachers must complete 40 hrs of **Additional Components** listed below. These additional components provide the teacher with direct access to state staff and experienced teachers. This is an important part of the induction program because teachers need to learn in a face to face situation to re-enforce the distance learning element.

Each year substitutions to this list are announced by the DPI Trade and Industrial Education.

Upon completion of a module the participant will be provided with a CEU certificate. This certificate should be kept on file by the participant and their LEA's licensure department. Each participant is required to maintain records to complete the induction process to meet licensure certification.

CORE COMPONENTS (40 hours): Contact East Carolina University Division of Continuing Studies for Online Modules (Contact info: Ivan Wallace, Chair College of Education, 252-328-6983) and go to www.careersafeonline.com for the safety module.

Module	Topic	Dates	Hours Credit	Times	COST	Location
1	Safety	Available now via CareerSafe	10	Asynchronous	\$18	Online
2	Assessments using CMS	Available via ECU Aug 1, 2007	10	Asynchronous	\$100	Online
3	Instructional Management	Available via ECU Jan. 11, 2008	10	Asynchronous	\$100	Online
4	Classroom Management	Available via ECU Jan. 11, 2008	10	Asynchronous	\$100	Online

ADDITIONAL COMPONENTS (Select 40 hours):

Conference / Contact info	Dates	Hours Credit	Times	COST	Location
