

## Lockhart Lions **R.O.A.R!**

Hello Lockhart families,

We are very excited to have *your child's class* piloting the Bring Your Own Device (BYOD) program beginning January 23, 2017. BYOD is a growing national trend and it has come to Wake County! Additional classrooms will be added to the program starting next Fall. This program allows your child to bring their own technology that can be linked to the BYOD WiFi into the classroom. This includes, but is not limited to, a laptop, any tablet, and any e-Reader that has the capability to link to the BYOD WiFi network. No gaming systems will be allowed in the classroom. Use of the technology will be integrated meaningfully into lessons which will include research, assessments, interactive collaboration, instruction, and final products from project-based learning opportunities.

Prior to having students bring in their device, we are having an informational meeting for parents on **Thursday, December 15 at 5:15, in Lockhart's Media Center.** We will walk you through the steps of setting up the BYOD WiFi, so if possible, **please bring the intended device(s)** you are willing to let your child bring to school.

Many questions will be answered at the information session, however, two key questions are:

1. Q: Does my child have to have a device?  
A: Absolutely not -- this is a family's choice!
2. Q: If my child does not have a device, will s/he still be able to participate in technology learning experiences?  
A: Absolutely -- just as s/he is now!

We look forward to exploring this new educational opportunity with you and your child!
