

**Centennial Campus Center for Innovation
Magnet Middle School**

Home/ School Compact 2023-2024

1900 Main Campus Road, Raleigh, NC 27606
(919) 233-4217

*This Home/ School Compact is a reflection of our shared responsibility
as a school community for high student achievement*

Mission: CCMMS is dedicated to providing a diverse learning environment that significantly increases achievement for all students. CCMMS provides a safe, nurturing atmosphere that fosters learning and innovation through the integration of curriculum, the Design Thinking Model, Characteristics of an Innovator, and campus partnerships to produce students that positively impact our community.

Willingness to try		
		
<u>Teachers will...</u> <ul style="list-style-type: none">• Guide and teach our students the characteristics of an Innovator• Create an innovative space and be prepared every day to offer students an exceptional educational experience• Clearly and consistently share expectations around learning and conduct with families and students	<u>Families will...</u> <ul style="list-style-type: none">• Ensure their student comes to school on time and ready to learn• Provide a designated space in the home to complete homework and study.	<u>Students will...</u> <ul style="list-style-type: none">• Enter the classroom prepared and ready to learn• Commit to taking ownership of their learning and striving to always do their best and take risks• Actively engage with lessons taught to them, both at school and at home

Collaborative

Teachers will...

- Collaborate with families and staff about student progress

Families will...

- Build relationships with staff and other families to foster a welcoming culture at the school
- Help to create solutions alongside staff when problem-solving student needs
- Ensure the school has the correct contact information at all times

Students will...

- Work with teams or groups of peers
- Encourage others to share ideas and talents

Curious

Teachers will...

- Model an open, inquisitive attitude to new and familiar activities, ideas, people, and cultures.
- Model and encourage active listening

Families will...

- Ask your student open-ended questions about their day, hobbies, and interests.
- Encourage your student to try new things and persevere when learning something new.

Students will...

- Ask questions
- Build connections to what they already know
- Open to the world around them and want to know more

Growth Mindset

Teachers will...

- Help families and students understand and set instructional goals and expectations

Families will...

- Support their student to help them develop as a learner and a leader
- Work with the school to set goals for their student and work together to achieve them

Students will...

- See challenges not as failures but as ways to learn and grow
- Be open to asking for help

Communicative

Teachers will...

- Communicate regularly with families
- Respond within 24 hours when a family member has requested communication

Families will...

- Talk with their child daily about school
- Openly and regularly share with staff when questions, concerns, thoughts, or ideas arise (proactively, if possible)

Students will...

- Share with staff and their families what they are learning and how they are feeling
- Ask questions and share ideas
- Seek to hear from others while listening with an open mind for understanding

Resilient

Teachers will...

- Create a classroom where failure and setbacks are an expected and honored part of learning.
- Recognize and compliment students when they take responsible risks and challenge themselves

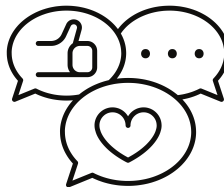

Families will...

- Encourage their child to complete all assignments

Students will...

- Keep trying and adapt to challenges or changes they face
- Ask for help when it is needed
- Encourage others to not give up

Reflective

Teachers will...

- Model and provide opportunities for goal-setting
- Engage with students in reflective conversations on things going well and need improvement

Families will...

- Engage with your student in reflective conversations on things going well and need improvement
- Have reflective conversations with your student about healthy technology and social media use

Students will...

- Examine their work and actions
- Identify if they are happy with the outcome
- Wonder how they can improve next time

Courageous

Teachers will...

- Encourage students to try new things that seem difficult

Families will...

- Engage in opportunities the school offers to learn about connecting school and home and how to partner for student achievement
- Ask for help when needed

Students will...

- Be willing to speak openly and honestly
- Persevere and try

Empathetic

Teachers will...

- Listen with openness and value the story of students and their families
- Respond with understanding
- Provide realistic and genuine feedback

Families will...

- Help their student with understanding the perspectives, needs, and intentions of others

Students will...

- Seeks first to understand where another is coming from
- Care deeply for others and show through words, actions, having perspective and understanding
