GREEN LEVEL ATHLETICS

Return to Athletic Activities – COVID-19 Daily Monitoring Check-in/Screening Procedures

This document will serve as a detailed and uniform plan to be used by all Green Level athletic teams for checking in and screening all athletes and staff members on a daily basis when returning to athletic activities. This document will be updated as needed when additional sports return to campus and resume athletic activities. Please note proper entry and exit areas below.

▪ Check-in/Screening Station Locations

- There will be 3 properly spaced and socially distanced check-in/screening stations on campus. One located at the stadium entrance (XC), one located at the entrance to the Main Gym (VB/CHEER) and one located at the entrance to the arts hallway (DANCE).
- Athletes that drive may park in the main parking lot(s) and report to their check-in/screening station.
- Parents/guardians bringing an athlete may also park in the bus or student parking lot, but **ONLY** the athlete is permitted to get out of the vehicle to report to their check-in/screening station. **DO NOT LEAVE UNTIL YOUR ATHLETE HAS BEEN CLEARED TO PARTICIPATE THAT DAY** (in the event an athlete does not pass any part of the screening process, they must return to the vehicle and leave campus).

▪ Screening Process

- Proper social distancing of 6 feet must be used at all times during the screening process and throughout practice/workout activities.
- Athletes must wear personal face covering at all times during screening and transitions (may only remove during physical activity)
- Pods (athlete training groups) will be assigned to check-in/screening locations by sport. Members of the coaching staff will direct athletes upon arrival. Athletes must check-in with their Pod at the assigned check-in/screening station. No late check-ins or screenings will be allowed. Please plan to arrive on time.
- Using the NCHSAA COVID-19 Daily Monitoring Form, each athlete and athletic staff member will be asked a series of questions and have a temperature reading done with an Infrared, no-contact thermometer.
- If an athlete does not pass any step of the screening process, including a recorded temperature of 100.4 F or higher, they will not be permitted to participate and will be deferred to a doctor. Written clearance from a doctor must be submitted before an athlete will be permitted back on campus for athletic activities.
- **Once an athlete has cleared this daily screening process, they will be directed to immediately report to their assigned practice/workout location.**
