

Kingswood Magnet Elementary School for Montessori / STEM

Kingswood is a Title I Distinguished School, the 2013-2014 Title I Reward School, an NC STEM Learning Network School, and a member of the WCPSS BYOD Cohort. Our teachers are trained to provide an interdisciplinary approach by integrating science, technology, engineering, and math (STEM) in all Common Core State Standards through project-based learning. Our outdoor learning centers combine STEM concepts with Montessori based activities where students enjoy learning opportunities year round.

Reedy Creek Magnet Middle School Center for the Digital Sciences

Reedy Creek Magnet Middle School Center for the Digital Sciences is an award-winning magnet school located in Cary. Magnet Schools of America has named Reedy Creek a Top 20 Magnet school in the nation. At Reedy Creek, we prepare students for the digital world by teaching Computational Thinking and using technology as a tool for collaboration and innovation. Our electives include Robotics and Mechatronics, Bits & Bytes, and Emerging Technologies.

Southeast Raleigh Magnet High School University Connections: School of Design, Arts and Engineering

At SRMHS, blending University Connections with Design, Arts & Engineering, creates a challenging and dynamic environment for all students. Emphasizing leadership and character development, along with engaging college and career pathways, students maximize their potential as global citizens and strong community leaders. Corporate and university partnerships, mentoring, and support strongly enhance this magnet theme. Through this unique magnet model, students are provided skills training for college and the workplace that are increasingly dependent upon technology, creativity, innovations, and leadership.
