Parents: We recognize that buying school supplies can be a daunting and expensive part of raising children and we have done our best to provide you with a clear and comprehensive list that should last the year if students take care of materials and use them appropriately. We have based our list on years of experience in working with middle schoolers and knowing their organizational skills and time management with regard to the heavy workload and rigorous demands of seventh grade. We ask for your help in procuring as many of these supplies as you are comfortably able to, LABELING THEM with child's name and subject/teacher when appropriate, and then reinforcing at home the lessons of writing in their planner/agenda, cleaning out homework folders and filing away papers correctly so they can be found and used (particularly for test corrections). Many of you may find you are ready to take a "step back" after the transitional sixth grade year. We encourage you to wait, and in fact, "STEP IN" a bit closer to supervising and monitoring your child's work habits and homework completion, especially this first quarter. Please sign up for a PowerSchool account and make sure to know your child's Google login information, school email account and our team website. **Thank you, we truly look forward to partnering with you this year, 2019 ~ 2020.**
