

INSTRUCTOR: MR. HERGET

COURSE: SPANISH 1

PROJECT SUMMARY

- In this project students will delve into the rich and diverse world of Spanish cuisine. Through research, cooking, and presentation, students will not only learn about vocabulary associated with food in Spanish but also gain insights into the cultural significance of various dishes. This project will enhance their language skills, foster teamwork, and provide a delicious hands on experience.

DRIVING QUESTION

- What is traditional food from a Spanish speaking country?

SUSTAINED INQUIRY & AUTHENTICITY

- Students will learn to talk in Spanish about food and they will practice cooking. They will also learn teamwork and organizational skills.

STUDENT VOICE & CHOICE WITH PUBLIC PRODUCTS

- They will make food to be shared with the class and they will present to the class about the cultural and historical significance of the food.

TEACHER REFLECTION

- This time around I had the students share their food with several other classes which I think was a good idea. I probably should have made some kind of feedback tool for the students that tried the food. I also felt like the background reports on the food were not as good as they were last semester. I think part of the reason for that was the students did not have to present in front of a whole class, instead they presented at stations which are easier to fake your way through.

STUDENT REFLECTIONS

- "I can use my knowledge of other cultures to make conversation with future customers to keep a loyal clientele in my future profession."
- "Decision-making was a major factor in this, as we had to decide what food we wanted, who would be cooking the food, where we would be getting the recipe from, and much more."
- "I grew in my ability to work in a team and collaborate with one another to define who was going to do what."
- "We had to give each other feedback build a presentation that was clear, and that was extremely helpful."

NOTED SKILLS GAINED

- DECISION-MAKING
- COMMUNICATION
- TEAMWORK
- PRESENTING
