WORLD-CLASS EDUCATION

North Wake College and Career Academy (NWCCA) is a Cooperative Innovative High School for students in Grades 9-12 that focuses on graduating students college and career ready in one of five program areas of study. NWCCA is a partnership between the Wake County Public School System (WCPSS) and Wake Technical Community College (WTCC). NWCCA students have the opportunity to graduate with a high school diploma, a Wake Tech certificate, college credits and recognized industry credentials.

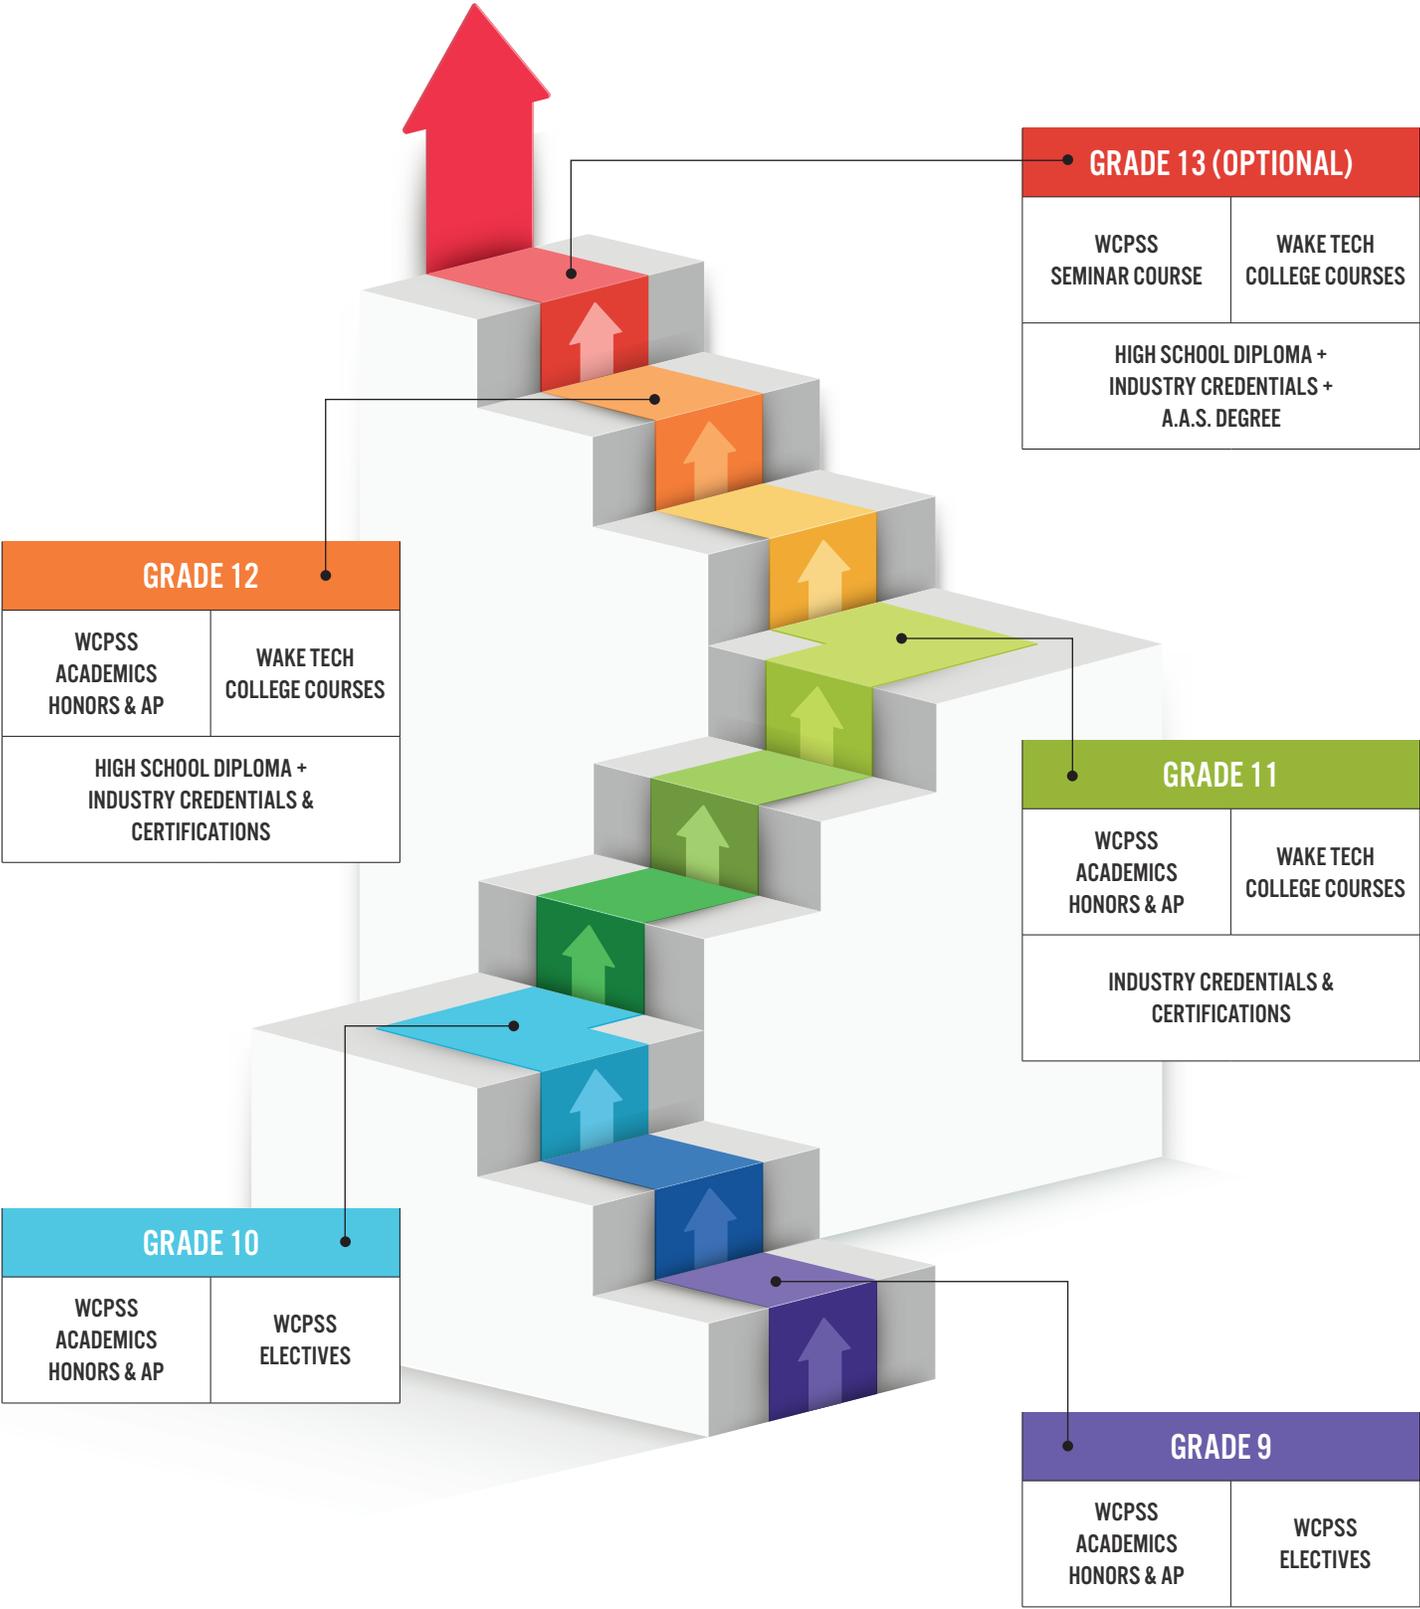

NWCCA is a Project-Based Learning (PBL) school allowing students to discover and learn content knowledge by working on an authentic project over an extended period of time. These projects engage students in solving a real-world problem or answering a complex question related to the content standards for the course. Students demonstrate their understanding and skills by developing and sharing a public product with a real audience. As a result, a deep understanding of content knowledge is developed in addition to sharpening critical thinking, creativity, collaboration and communication skills in a meaningful context.

To greater enhance student learning, NWCCA has established a comprehensive career development program emphasizing college and career readiness. Businesses and industry experts power this program providing employability skills training, career exploration activities, job shadowing experiences, summer internships and employment opportunities.

A photograph of Monica Perdomo, a woman with dark hair in a bun, wearing glasses and a grey blazer, leaning over a table in a library. She is pointing at an open book on the table. Another person with blonde hair and glasses is partially visible in the foreground, looking at the book. The background shows bookshelves filled with books.

NORTH WAKE COLLEGE & CAREER ACADEMY EDUCATIONAL MODEL

Our Associate in Applied Science (A.A.S.) degrees are designed to give students marketable skills as the foundation to an evolving career. Students will have opportunities beyond the Wake Tech Certificate to earn additional credits toward the A.A.S. degree.

Optional college courses are available to help complete the A.A.S. degree or meet college goals. 5th-period courses are available virtually after school and include several university transferable credits within the AAS degree. Students can elect to take additional courses in their program of study in the summer, or during the school day to replace WCPSS electives. While our AAS degrees provide marketable employable skills, they are different from University Transferable Associate degrees.

Students will have additional opportunities to work toward completing the AAS degree by becoming full-time college students during the 13th Year, tuition-free (except EMS, EMS has Apprenticeship opportunities).

Focused and motivated students will acquire skills (through certificates, credentials, & A.A.S degree) to advance their education and potential careers.

WAKE TECH COLLEGE PROGRAM DESCRIPTIONS

BUSINESS ADMINISTRATION

The Business Administration curriculum introduces students to the free enterprise system. It offers a fundamental knowledge of business functions and processes, and an understanding of business organization and operation in today's global economy.

Coursework includes business concepts such as management and marketing. Skills related to the application of these concepts are developed through the study of computer literacy, communication, team-building, and decision-making.

CULINARY ARTS

The Culinary Arts curriculum provides specific training required to prepare students to assume positions as trained culinary professionals in a variety of food service settings including fine dining full-service restaurants, hotels, resorts, clubs and cruise lines.

Coursework includes hands-on culinary fundamentals, professionalism and provides the critical competencies to successfully meet industry demands. Courses also include sanitation, menu planning, baking, Garde Manger, advanced culinary arts, and hospitality supervision.

EARLY CHILDHOOD EDUCATION

The Early Childhood Education curriculum prepares individuals to work with children from birth through kindergarten in diverse learning environments. Students who complete the A.A.S degree will have the option to transfer 60 credits to UNC Member schools with Early Childhood programs for a bachelor's degree.

Coursework includes child growth and development; physical/ nutritional needs of children; care and guidance of children; and communication skills with families and children. Students will learn to foster the cognitive/ language, physical/motor, social/emotional, and creative development of young children.

EMERGENCY MEDICAL SCIENCE

The Emergency Medical Science program provides high-quality instruction in emergency medical care to prepare students for N.C. Emergency Medical Technician (EMT) credential. EMS students apply learned concepts and skills in real-world settings through field clinical experiences. Proof of vaccinations, criminal background check, and drug screen must be obtained and provided to be eligible for EMS courses. Students with vaccine exemptions will not be eligible for this program.

Due to regulatory requirements in EMS programs, students will not be eligible for a 13th-year option.

INFORMATION TECHNOLOGY

The IT Service & Support curriculum gives students the practical and marketable skills necessary to support computer systems in any business. Students begin with the installation, configuration and maintenance of operating systems, including Windows and Linux

Coursework introduces students to virtualization, hardware support and repair, and Windows desktop and server configurations.

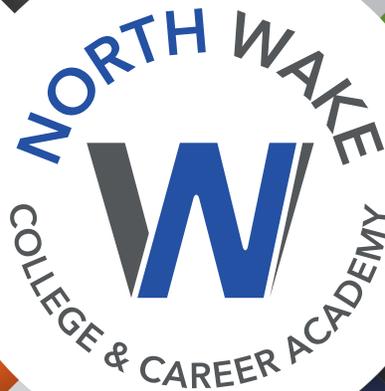

NWCCA HOW TO APPLY

1
The application period begins on Oct. 15 and ends on Dec. 14, 2022.

2
If you are not already enrolled in Wake County Public School System, you need to enroll in your base school for your address.

3
You can start your enrollment forms online at wcpss.net/enroll

4
Once enrolled, create your parent account at earlycolleges.wcpss.net/apply. You must have an active student ID number to create an account.

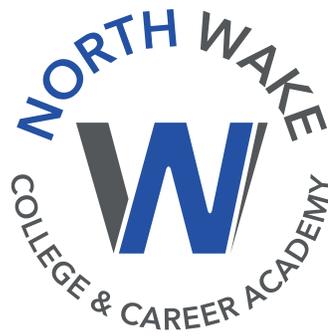

5
You will complete your application in the parent account. You may apply to any early college for which you are eligible.

6
You will be notified of the results in mid-February 2023.

7
If you are selected you will be automatically assigned to that school. If you are not selected, you will be placed on a non-numeric waiting list, known as an applicant pool, for your first-choice school only.

APPLICATION INCLUDES

- A student-written essay for each school
- Two years of prior grades
- Recommendations from the ELA teacher, the math teacher and a school administrator or school counselor.
- Current grades
- Two years of prior standardized test scores
