- **Easy, Healthy Choice**
When they are Smart Snacks, the healthy choice is the easy choice
- **Compliance**
Federal regulation and WCPSS Policy require smart snacks

Smart Snacks Nutrition Standards

- Federally legislated, adopted in WCPSS Wellness Policy
- Specifies nutrient, ingredient, and portion size requirements for foods and beverages
- Encompasses items “sold” and “provided” on campus
(learning programs, celebrations, and in-school events)
- Applies to all areas accessible to students
- During the school day
(defined as midnight through 30 minutes after the dismissal bell)
- WCPSS Policy: foods must be commercially prepared

Beverage Requirements

Approved for all schools:

- Plain water with or without carbonation
- Unflavored low fat milk
- Unflavored or flavored fat free milk/milk alternatives permitted by NSLP
- 100% fruit or vegetable juice
- 100% fruit or vegetable juice diluted with water (with or without carbonation) and no added sweeteners

Elementary schools: up to 8-ounce portions of milk and juice

Middle schools: up to 12-ounce portions of milk and juice with no portion size limit for plain water

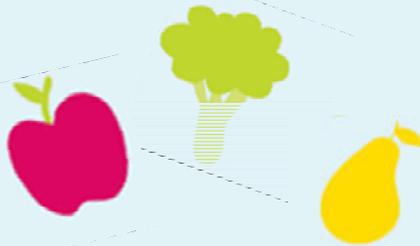

High schools:

- Up to 12-ounce portions of milk and juice
- No portion size limit for plain water
- Additional no calorie and lower calorie options permitted.
 - "NO CALORIE" — No more than 20-ounce portions of:
 - Calorie-free flavored water with or without carbonation; and
 - Other flavored and/or carbonated beverages that are labeled to contain <5 calories per 8 fluid ounces; or ≤ 10 calories per 20 fluid ounces
 - "LOWER CALORIE" — No more than 12-ounce portions of beverages with ≤ 40 calories per 8 ounces; or ≤ 60 calories per 12 fluid ounces.

Beverages and foods must be analyzed to assess compliance.

Food Requirements

Ingredient requirement:

- Be “whole grain-rich”; or
- Have as the first ingredient a fruit, a vegetable, a dairy product, or a protein food; or
- Be a combination food that contains at least $\frac{1}{4}$ cup of fruit and/or vegetable.

Nutrient requirements:

- Calories \leq 200
- Sodium \leq 200 mg
- Total fat \leq 35% of calories
- Saturated fat $<$ 10% of calories
- Trans fat zero grams
- Sugar \leq 35% of weight from total sugars in foods

Accompaniments such as dressings, spreads, etc... that are served with foods must be included.

Foods may be complex to analyze. Labels on “combination foods” do not necessarily indicate the amount of creditable fruit or vegetable. The only way to demonstrate compliance may be to obtain written documentation from a manufacturer.
