

2 November 2016

Dear Apex High School Neighbors,

You may remember receiving a similar letter to this back one in May, inviting neighbors like you to a public meeting about an upcoming construction project at Apex High School.

Due to a technicality in the paperwork, we will need to hold another public meeting about the same subject. The meeting will be held at Apex High School on **6:00 PM on Thursday 17 November**. We will meet in the school's Media Center.

Although work on the design has progressed since May, the overall layout will be the same as we discussed at that time

I have attached a drawing of the site master plan for your reference, which shows the overall site and the traffic patterns that we anticipate.

We plan to demolish the main campus buildings and replace them with a completely new building. The existing athletic fields will remain where they are, but with improvements to bleachers, toilets and concessions areas. For the two years while the construction work takes place, Apex High students and faculty will temporarily occupy the new Green Level High School

We plan to start construction on the site in June 2017, and the renovated school will open for students in Fall 2019.

If you have questions or comments prior to the meeting on the 17th, please contact Sheri Green at 919-588-3575 or [sagreen@wcpss.net](mailto:sagreen@wcpss.net).

Thank you,

Larry Sherrill, Architect  
Senior Facility Planner
