

# Connecting Students with Autism to Geographic Information Science & Technology (CSA-GIST)

Is your 9th or 10th grader interested in drones?

Do you want them to experience an exciting voluntary research program that can prepare them for future careers in **STEM**, all for FREE?

If so, then this program is just for you.

## Students Get:

- \$200 annual stipend
- Introduction to Drone Piloting
- VR computer simulation training
- Small group and individual mentoring
- Free transportation

Come to one of the  
**Open Houses**  
to find out more!
