

Parents, are you concerned about your child's cell phone use? Do you have questions or concerns about social media and the influence it has?

Then plan to come out on **Tuesday, March 6 from 6:00-7:00 in the HMS auditorium** to hear "**How to Ruin Your Life Online**", an eye-opening and informative presentation on how technology is reshaping human behavior. Eric Chancy is a former WCPSS high school counselor, who has made it his mission to become an expert on the topic and educate others. He is constantly updating the information he presents to keep it current and relevant. We hope to see you!
