**SHARE YOUR CAREER ON FRIDAY, NOVEMBER 17TH!**

Just 3 months after our Career Fair, Reedy Creek MMS 8<sup>th</sup> grade students will make a 4-Year High School Plan and select courses for their freshman year in high school! Students interested in the specialized early college high school programs will submit their applications in early December, just a month after the fair! The students need to hear your career experiences and advice. They need an opportunity to ask questions and consider the broadest range of career opportunities. All careers are welcome – can you lend a hand?

**THE EVENT:**

8th Grade Career Fair  
Friday, November 17<sup>th</sup>, 2017  
9:50 until 12:10 (Setup: available from 8:50 AM)  
Refreshments provided

**LOCATION:** Gymnasium and adjacent areas

**ACTIVITY:** Informal discussion with individual students or small groups. No presentation necessary. Please do bring artifacts, photos, maps, brochures, or examples to help students visualize your work and work environment.

**PARTICULARS:**

Each volunteer is assigned a table and chair(s) in our gymnasium alongside other participants. The six foot table is long enough to display some artifacts from your workplace or brochures, etc., that will help the students identify or better understand your career. You do not need a presentation. Student ambassadors will meet you at the curb with flatbed and wheeled carts to help transport any equipment or artifacts that you bring. Also, there is direct access to the gym. Electricity is available. There is wireless internet access, please enquire ahead of the event.

Individual students or small groups will visit the career volunteers at their tables. As the students visit, they will make notes. Their career fair handbooks contain sample questions about employment eligibility, global connections, STEM skills (Science, Technology, Engineering, and Math), specific duties, general and academic skills, personal qualities and aptitudes, and the education or other training required for the career. Students will also be interested to know if your career offers entrepreneurial opportunities. The sample questions are meant to help the students get started in their conversation with you and to suggest a broad scope of possible discussions. The students will attend “Dressed for Success, “and ready to meet with you at the fair.
