

Panther Creek High School Advanced Placement Agreement 2023-2024

Advanced Placement courses are taught at a college level and require excellent organizational skills, strong study habits, the ability to work independently, and a high level of interest and commitment. Students can expect to spend substantial time outside of class preparing assignments, reading, and writing papers. In addition, Advanced Placement students may have summer assignments to prepare them for the challenge of their Advanced Placement course(s).

Commitment for the entire school year: I understand that a student may drop an Advanced Placement course up until Friday, July 28, 2023. After that date, only the Advanced Placement teacher, after conducting appropriate diagnostic work, may initiate a drop. I am making a commitment to continue this course for the entire academic year, no matter which semester I get the course.

Credit for the Advanced Placement test: I understand that taking the Advanced Placement test does not guarantee college credit. Colleges and universities determine the minimum score for which they will award credit.

Assignments and work habits: I understand that Advanced Placement courses require a substantial commitment of time and energy. I will be diligent in completing my assignments thoughtfully and on time. I understand that I am responsible for being a constructive member of an AP class by participating in class discussions, working cooperatively in groups, respecting the views of others, and taking responsibility for my decisions.

Special Requirements: If required, I agree to purchase the materials needed for each of my Advanced Placement courses.

Summer Assignments: I agree to complete the summer assignments. Failure to complete the summer assignment does not provide grounds for removal from the course. Instead, the incomplete summer assignment will be used in the determination of the student's grade. Some courses listed below have required summer work that must be completed by the deadline specified by the teacher. It is your responsibility to obtain the information from the AP portion of the PCHS website prior to returning from summer vacation. **See below for courses which require summer work.

College Board Website: Students are encouraged to visit the College Board website to view testing dates and important information regarding AP courses www.collegeboard.org
