## School Wide STEM Challenge

September - October

Due October 25, 2021

## Problem

This year "**Making It!**" Season 3 focused on repurposing or reusing materials in order to reduce our carbon footprint. This year we will be focusing on the same type of challenge!

As a country, we are very wasteful and struggling to recycle everyday items. The US recycles about 35% of what they consume. Can you find a new use for an old thing?

**Plan:** Show your design

**Improve:** How did you change your design from beginning to end?
