Pre-K-12 Students to Continue in Remote Instruction Until Mid-February -

The Board of Education voted today for all students in grades Pre-K-12 to remain in remote instruction through mid-February. Board members made this decision after hearing employees and school administrators share their concerns over the increasing percentage of positive cases, the level of community spread in our county and staffing concerns. Board members will review state and local guidance, state and local health data and district operation details before deciding next steps in February. Athletic skills development, conditioning and intramural options at the middle school level will not resume until in-person instruction resumes. [Learn more.](#)

Remote Learning Days -The Remote Learning Days (Asynchronous Days) for February will be February 3rd and 24th. We will no longer have an Asynchronous Day every week.
