Health and Safety Guidelines

Lunch - In accordance with guidance from WCPSS, the majority of classes eat outside for lunch, weather permitting. (Please note, we follow an inclimate weather plan for extreme heat, extreme cold, and /or precipitation where students eat inside, with spacing to the extent possible.) Only two classes per lunch block remain in the cafeteria, and these students are seated with spacing to the extent possible, facing the same direction, and masks are only removed while students are actively eating or drinking.

Face Masks - All students and staff will wear face coverings while indoors at school. The requirement also applies to school buses and vendor transportation. Correctly wearing face masks may prevent a student from having to quarantine if in contact with a student who is presumed positive for COVID. Please stress the importance of correctly wearing face coverings with your student so that we can ensure safety and maintain students' in person participation at school.

Water Bottles - Water fountains will continue to be closed to help prevent the spread of COVID. Please send your student to school each day with a water bottle. We do provide students without a water bottle with a plastic cup. Providing these cups is expensive, and we would be grateful for any donations. [Link](#) to example of cups that can be shipped directly to Oberlin.
