Athens Advantage Time Student Guidelines

PURPOSE

Athens Advantage Time has been created to assist students who are struggling with concepts or who are missing assignments for their current courses. Students who owe their teacher missing work or those who have a current PowerSchool average below 80%, will remain in the classroom during the Athens Advantage Time period. Students who aren't missing any work and who have an 80% or higher course average **may** remain in their classroom **or** they can be released to an approved location.

FRESHMEN

During Quarter 1 and Quarter 3, all Freshmen will be required to remain in the Athens Advantage Time classroom during each Athens Advantage Time period. Their eligibility for release time will be evaluated following the end of Quarter 1.

STUDENTS ELIGIBLE TO BE RELEASED

Those students who have all of their work completed and have an 80% or above, should move quickly to one of the approved areas within the first five minutes of Athens Advantage Time. Students who are eligible to be released will need to remain in their chosen area until the end of the Athens Advantage Time period for that day.

APPROVED AREAS
