Community Hope is an academically structured mentoring and literacy program that addresses the individual learning needs and holistic growth of students living in under resourced communities in Raleigh. The Community Hope Mentoring program matches a volunteer mentor (ages 16+) with a child. Our mentors meet with their students once a week throughout the traditional school year. Through this one-on-one mentoring relationship, students receive support, affirmation, and guidance from a positive role model to encourage their personal character development and academic success. With your help, students can gain more than one grade level of literacy proficiency each year as well as an expanded vision for their future.
