COMMUNITY SERVICE OPPORTUNITIES

Community Hope is an academically structured mentoring and literacy program that addresses the individual learning needs and holistic growth of students living in under resourced communities in Raleigh. The Community Hope Mentoring program matches a volunteer mentor (ages 16+) with a child. Our mentors meet with their students once a week throughout the traditional school year. Through this one-on-one mentoring relationship, students receive support, affirmation, and guidance from a positive role model to encourage their personal character development and academic success. With your help, students can gain more than one grade level of literacy proficiency each year as well as an expanded vision for their future. The Summer Training in Academic Research (STAR) Program, a summer program hosted by Duke University, provides a high-quality research experience for undergraduate students, high school students, and middle and high school teachers during the summer academic break. The eight-week program, held June 22 to August 13, 2020, will give participants who are interested in science and medicine real hands-on experience in research methodology and writing. Participants are placed in teams and matched with Duke faculty mentors to work on an original, hypothesis-driven project, originating as a one-page summary and culminating in a complete research paper. A goal of the program is to have every participant qualify for co-authorship on a peer-reviewed manuscript related to their team's project. The STAR Program is held at the Duke Clinical Research Institute in Durham, N.C., which has organized educational and support programs for junior faculty, fellows, residents, and medical students as well as high school and college students. *Participants receive a stipend to attend, which makes the program an option even for students who planned to work over the summer break. (see below).* Application forms for the 2020 STAR Program are now available for download from the <https://dcri.org/education/dukes-star-program/website>. We are now accepting applications until midnight January 10, 2020. We recruit a mix of high school students, college undergraduates, and teachers.
