GLOBAL POINTS OF PROGRESS - United States: The first fully flushable, biodegradable pregnancy test has reached online shelves. Americans buy an estimated 20 million at-home pregnancy tests every year. Those tests have been accumulating in landfills since they entered the market in the 1970s, and today's tests are mostly unchanged since the late 1980s. Developed

over six years by a women-led team, Lia is part of a broader push to re-imagine and destigmatize menstrual and pregnancy products. Instead of plastic, glass, electronics, or nitrocellulose-treated paper, all common components of other tests, Lia is made with the same materials as toilet paper.

STUDENT ANNOUNCEMENTS [GENERAL]

Hey Caps,

The members of Distinct Youth and Project Purpose, a nonprofit organization started by a former Broughton Student, are hosting a drive for victims of homelessness in the Raleigh area. Our goal is to create and donate 100+ care packages before our December holiday break and distribute these packages in and around homeless shelters. Care kits will include toiletries such as lotion, deodorant, soap, toothpaste, toothbrushes, wash cloths, masks, and feminine hygiene products. We are also accepting new or gently used winter apparel such as socks, t-shirts and jackets. Additionally we are seeking fast food gift cards. That way recipients can purchase food items. Five items or \$5 are equal to one hour of Community Service. Donation boxes will be placed in the Media Center, the Cafeteria, and the Front Office. To register your donation, please Scan the QR Code posted at each drop off site, complete the Google Form presented from the QR Code, and you will receive credit in the form of Community Service hours. Make sure that your donation is in a bag with your name on it before placing it in the donation bin. For more information or questions please contact Ms. Closs, Ms. Hunter, Talayla Braswell, or Arielle Brown. Thank you in advance for your donation.
