2023 SUMMER OPPORTUNITIES

[Link to the list that is posted on CFNC with summer enrichment opportunities]

The Summer Training in Academic Research (STAR) Program, hosted by Duke University, provides a high-quality research experience for undergraduate students, high school students, and middle and high school teachers during the summer academic break. The eight-week program will give participants who are interested in science and medicine real hands-on experience in research methodology and writing. Participants are placed in teams and matched with Duke faculty mentors to work on an original, hypothesis-driven project, originating as a one-page summary and culminating in a complete research paper. A goal of the program is to have every participant qualify for co-authorship on a peer-reviewed manuscript related to their team's project. The STAR Program is held at the Duke Clinical Research Institute in Durham, N.C., which has organized educational and support programs for junior faculty, fellows, residents, and medical students as well as high school and college students. *Participants receive a stipend to attend, which makes the program an option even for students who planned to work over the summer break ([see below](#)).* The Duke STAR Program 2023 application period is November 21, 2022 to January 6, 2023. *There will be no extension.* The program will take place June 20 to August 10, 2023. *Questions may be submitted via email (dukestarprogram@duke.edu). We regret that we are unable to respond to phone calls.*
