Broughton Community,

These past 11 months have been something else and a lot has changed. For me, there's 2 things that haven't changed: my hair (11 months strong without a haircut), and my passion for raising money for such an amazing cause, St. Baldricks. Please see the information [IN THIS LINK](#) from my former principal and Team T.A.C.K.L.E leader (Teachers Against Cancer Killing Little Educatees), David Gaudet. My hope is that you can contribute in some way to help raise money and conquer kids' cancers. It'd be great to have a strong representation by our Broughton Community by joining Team TACKLE. *If you would like to donate, you can visit my page [HERE](#), or see other members of our team [here](#). By the way, Coach Dawson and I raised OVER \$5,000 last year! Thank you!!!*

**Whom Should I Contact?** To best support your student and your family as we kick off the year, we want to provide you the fastest response time on your questions as possible. To this end, we've created a [Whom Should I Contact document](#) that provides contact information for commonly asked questions. You can find this on our website under "Our School" at "Contact Us."

**GLOBAL POINTS OF PROGRESS - Africa:** African countries that subscribed to a free deforestation alert system experienced an 18% decline in forest loss over two years, sparking hope that the satellite-based tool can be used to mitigate climate change. A University of Maryland lab uses high-resolution images from NASA satellites to monitor forests, and when its algorithms detect deforestation occurring, the Global Land Analysis and Discovery system - also known as GLAD - delivers an alert to local authorities.
