GLOBAL POINTS OF PROGRESS - Mexico: Mexico City's ban on most single-use plastics came into effect in January after more than a year of preparation. In 2020, Mexico City's environmental agency said the capital produced roughly 13,000 tons of garbage per day, including more than 7 million tons of plastic over the course of the year. Single-use plastic bags were banned in 2020, and now the commercialization, distribution, and delivery of other plastic products, including straws, disposable plastic cups, and balloons, is prohibited.

BHS Sports & Entertainment Marketing students are so excited for our 4th annual Play4Kay fundraiser event after we raised more money for the Kay Yow Cancer Fund than any other high school in the country last year! Although we're unable to host a Play4Kay basketball game this year, we'll be carrying on two our favorite traditions by selling commemorative t-shirts and hosting an online silent auction. We are also adding a couple of new elements this year - "flamingo flocking" and a series of restaurant spirit nights. Spirit nights are not only a way to raise money for the Kay Yow Cancer Fund but also a way to help our local restaurants who have been heavily impacted by COVID restrictions. Visit our [Play4Kay event website](#) for more information on all of our upcoming events.
