What We Do You Can Too (WWDYCT) is a program supported by the NC Chapter of the Public Relations Society of America, the Triangle Chapter of the American Marketing Association, and the Triangle Chapter of the American Advertising Federation. This work-based learning program is designed to expose high school students in Wake County to careers in the strategic communications field. If you are interested in participating in the WWDYCT Program during the summer of 2019, visit <https://wwdyct.org/> and follow the instructions.: 1. Complete the entire application packet with the required information. 2. Sign the photo release and guardian consent form. 3. Submit a letter of recommendation from an academic teacher, community agency, high school counselor, or principal. 4. Send the completed application to wwduc2@gmail.com, by May 15, 2019. Your application will not be processed if there is incomplete information. Once your application has been received, you will be notified by email if you were selected by May 22, 2019. If you have any questions, please contact Vernessa Roberts at 919-995-0264. Thank you for your interest in our program.

5/28-30: 2:15-5pm

5/31: 2:15-4pm

STUDENT ANNOUNCEMENTS [JUNIORS & SENIORS]

The Phi Lambda Chapter of Alpha Phi Alpha Fraternity, Inc. is sponsoring a National Black Scholars Signing Day Program. It is a program allowing students to announce the college of their choice. It is an amazing program that will be held Sunday, June 2 (3pm) at Watts Chapel Missionary Baptist Church in Raleigh, NC. A good meal will also be served as well. Students can register online at www.nationalblackscholars.com. The deadline to register is May 26th. If you have any questions, please feel free to contact the Coordinator, Shelton Ford, at 919-395-9135.

Broughton has been asked to nominate rising-seniors for the [Discover Swarthmore \(DS\) fly-in program](#). Discover Swarthmore is an all-expenses-paid visit to one of the best liberal arts and engineering colleges in the country. Prospective students get a taste of the college experience, including the opportunity to meet current students, learn from faculty members, eat in our dining hall, and spend a few nights in our residence halls with student hosts. This fall we are hosting Discover Swarthmore programs on September 19-21, 2019, and October 29-31, 2019.

The selection committee prioritizes applications from students with the following characteristics:

Underrepresented students (African-American, Asian-American, Hispanic/Latino/a, Middle Eastern and North African, and Native and Indigenous American)

- First generation in their family to attend college
- Low-income students (Pell-eligible, free/reduced lunch, etc.), and students who might not otherwise be able to afford a trip to campus
- [Rural and small town students](#)
- [Undocumented and DACA-eligible students](#)

Additionally, we invite applications from any rising senior who is interested in attending, regardless of demographic or economic background. If interested in being nominated, see Mr. Rudder in the Guidance Resource Center [Room 1209].

Nominations are due by June 17, 2019.

Stough Elementary. We are having a 50th anniversary party this year and are looking for high school volunteers to help run some games and booths for the students. We will probably need no more than 12 volunteers. Do you have students or clubs who might like to participate? Here is a link with more information about the event. It is on Thursday, June 6 at 5:30 (4:30 set up time).

Students who are accepted to NC State for the upcoming Fall 2019 semester:

Consider a once-in-a-lifetime opportunity to start your college career with a hands-on adventure like you've never experienced before. Apply for the 2019 Colorado GeoJourney - NC State's only immersive geosciences field course for incoming first-year students. Each year the Department of Marine, Earth, and Atmospheric Sciences partners with the University Scholars Program to facilitate this two-week experience that builds an immediate community with a group of peers, brings the geosciences to life through a two-week field course, and starts students' college career with 3 credit-hours of coursework that may count toward their GEP required coursework. If you crave education in action, the great outdoors, and building community then you should consider this opportunity to learn how the geosciences are utilized in multiple facets of daily life. GeoJourney explores the relationships between the geosciences and society along one of North America's greatest waterways - the Colorado River. Participants will:

- Get to know an amazing cohort of curious adventurers just like them.
- Earn 3 credit hours in Geology that may fulfill a GEP requirement.
- Spend 2 weeks learning & exploring along the iconic Colorado River.
- Learn how geoscience knowledge will be essential in shaping our future world.

The program runs Thursday, July 25th, 2019 – Saturday, August 10th, 2019.
