We are stuck in the middle at our halfway mark for the "Everyone Can Use A Boost!" no-fuss fundraiser benefiting the BHS Academic Booster Club (ABC). We're holding steady at \$19,000 of our \$37,500 goal, so we're extending the fundraiser until September 25. If you haven't yet made your contribution, here's your chance to make a huge difference for our students. Together we BOOST Broughton students to strive for excellence at all levels, whether they're headed for a four-year degree, two-year degree, vocational/ technical college or straight to career. Our goal is student success in school and beyond. Please consider making a tax-deductible contribution today at <https://bhsboosters.memberhub.gives/abcboost>. We have corporate and family sponsorships available with benefits for all. Thank you so much for your support,

Whom Should I Contact? To best support your student and your family as we kick off the year, we want to provide you the fastest response time on your questions as possible. To this end, we've created a [Whom Should I Contact document](#) that provides contact information for commonly asked questions. You can find this on our website under "Our School" at "Contact Us."

GLOBAL POINTS OF PROGRESS - Ethiopia: Researchers have created a portable laboratory that can test water samples for millions of bacteria, allowing scientists to identify waterborne hazards faster and at lower cost. In sub-Saharan Africa, monitoring water quality can be a time-consuming and expensive process. The initial investment in one of these toolboxes is one-fifth the cost of conventional benchtop sequencing machines.
