Please see Mr. Rudder in the Guidance Resource Center if you have a grandparent or great grandparent who attended Broughton High School.

The baseball team will be playing at home on Saturday and proceeds from the game will be going to the local ALS chapter in the name of Chris Combs. Chris is an alumni of Broughton and is currently fighting the dreadful disease. There is a JV game at 12pm and a Varsity game at 3pm against Hoggard High School. Along with proceeds from the afternoon, there will be the opportunity to leave a donation for the fight against ALS. We will have hot dogs and hamburgers cooked on site and it looks like a beautiful day for baseball. Thank you. Go Caps! <https://teamchriscombs.org/>

The Spring Daze Arts & Crafts Festival in Cary, NC has opportunities for high schoolers to receive community service hours. The Spring Daze Arts & Crafts Festival is a signature event of the Town of Cary. Nestled under the shady canopy of Bond Park, Spring Daze features over 170 North Carolina artists, entertainment on four stages, delicious festival food, and Cary's annual Earth Day Celebration. Spring Daze features the best of North Carolina's diverse arts and crafts community. This year, the festival has volunteer opportunities on Friday, April 26, 2019 and Saturday, April 27, 2019 in a variety of positions and time slots. High schoolers ages 16+ are invited to sign-up independently. If there are any service clubs or organizations that have members who are age 15 or

younger, we have a handful of positions for group volunteering with adult volunteers present to chaperone. To sign up visit

The North Carolina Department of Information Technology, along with Governor Cooper, is participating in [Girls Go CyberStart](#), a free, online, cybersecurity competition for girls in high school grades 9-12. Through this program, students will be able to compete against students from 25 other states in a series of puzzle-solving and information technology challenges to earn scholarship money, prizes, and money for their schools. At least 10 students from our state will get \$500 scholarships. Students and teachers do not have to have previous experience in coding, cybersecurity, or information technology in order to participate. This is the second year our state has participated in the program, which was very successful in its inaugural year. Many students loved participating and having the opportunity to be introduced to cybersecurity as a career option. Currently, there are 22,000 unfilled information technology jobs in North Carolina. Registration is now open and closes March 25, 2019. Students can begin playing on March 20. We would love to have a big group representing North Carolina this year!
