### STUDENT ANNOUNCEMENTS [GENERAL]

Broughton High School is hosting its 4th Annual Walk For Water on Saturday, May 4th at 10:30 AM on the Broughton High School track to fight water insecurity and inequality throughout the world. The two-mile walk around the track represents only half the distance that millions of women and children in the world have to walk, just to find clean water. The Walk for Water benefits the nonprofit Global H2O which was founded by Broughton alum, James Wilde. He founded Global H2O to raise awareness and provide assistance to countries facing a water crisis. Each year, Broughton, Daniels, and other generous donors have raised over \$10,000 for this cause. This year our goal is to reach \$15,000. The money we have raised thus far has provided more than two wells that will provide a lifetime of clean water for these areas. We welcome all students, parents, members of the Broughton community, and local schools to register, donate, and/or create a team. Please join us! Please spread/share the link below to register and/or donate! We appreciate any amount that you are able to contribute.

Broughton athletes are invited to join us for our annual spring physicals. We would like to encourage as many students as possible to attend physicals to avoid any pre-season or during season issues which result in time out of sports. If students get a physical now, they will be set and not need another one for the whole next school year which is a HUGE plus! This is one of the only ways we raise money during the year for all of our injury and illness needs. Your support means everything to us. Thank you for partnering with us as we continue our quest to best meet all of your wants and needs.
