

<p align="center">Future Business Leaders of America</p> <p>In this class, you will gain business and leadership skills that can help you throughout your time in school and with your careers in the future. Students will also have the opportunity to work together to create business plans and events. Students who were enrolled in this class 1st semester should NOT sign up again.</p>	<p align="center">Turn The Page</p> <p>Do you want a perfect way to end your day? Meet up with friend, grab a great book and read. Then we'll have a chance to discuss the books and high-five them or slam them. We'll have chances to dabble with science fiction, fantasy, realistic novels, mystery, and all the thrills and plot twists you can handle.</p>	<p align="center">Portfolio Development and Art and Design</p> <p>This semester students will work on developing an art and design portfolio. For many this is for submission for Art 2 at the high school. Students who were enrolled in this class 1st semester are eligible to take again.</p>
<p align="center">Beginning Mandarin</p> <p>你好 ! Ni hao! (Hello!) Welcome to Beginning Mandarin. In this class, you will learn how to have basic conversations, describe people, talk about your favorite hobbies, etc. all in Mandarin Chinese. We will also have opportunities to do fun arts and crafts. Participation is very important in a language class, so please be prepared at all times to do so! Students who were enrolled in this class 1st semester should NOT sign up again.</p>	<p align="center">History of Entertainment</p> <p>Everyone loves to be entertained. Things like movies, sports on TV, and popularized music have been around for decades, but they haven't always been the way we know them as today. This class will examine the history of the many forms of entertainment people in our society value and how they have changed over the past century.</p>	<p align="center">Genius Hour</p> <p>Genius Hour is a project-based Flex Class that allows you to pursue something you are interested in! Your teacher will provide guidance in brainstorming, strategy, engineering, design and personal psychology to get you started. You will then be challenged to explore something you are interested in or passionate about. You will spend time researching, designing, engineering and planning a culminating project to demonstrate the new knowledge or skill you have. Sign up and unleash your inner genius!</p>
<p align="center">Exploring Landscape Architecture</p> <p>The outdoor spaces we move through include how the environment is organized, how it connects to structures, and how the climate affects the design. Explore types of plants, trees and structures used in landscape architecture and practice using these in your own design. Includes research, a look at historical examples, and models. Students who were enrolled in this class 1st semester should NOT sign up again.</p>	<p align="center">Italian 101</p> <p>Get ready for your trip to Italy! Come learn how to speak Italian as well as enjoy learning about the culture. Some times we will try different Italian foods too! Andiamo! Let's go!! Students who were enrolled in this class 1st semester should NOT sign up again.</p>	<p align="center">FCCLA - Come Discover Leadership</p> <p>Check out the student organization that centers around the family. <p>Boys Advanced Fitness and Running</p> <p>Girls Advanced Fitness and Running</p> <p>Students will participate in a variety of fitness activities to increase muscular strength and endurance with a major focus on cardiovascular endurance through running.</p>	<p align="center">Team Concept</p> <p>Students will participate in various intramural team tournaments.</p>	<p align="center">Positivity Project</p> <p>In this class we will create videos and activities for the Positivity Project next year. If you are interested in video editing, building Google Presentations, or have great ideas as to how we can improve P2 this might be the class for you. We are limited only by your creativity!</p>

<p>Careers and Leadership in Sports Do you love sports? Do you want to be around sports everyday? You don't have to be an athlete to have a career in sports. Students will learn about careers, roles, and job skills related to sports. Students will have the opportunity to investigate a variety of sports related careers, interview people who have different sports related careers, and immerse themselves in opportunities to develop their job skills. Students who were enrolled in this class 1st semester should NOT sign up again.</p>	<p>Science and Engineering Students will learn in collaborative groups about the Engineering Design Process (EDS), while experiencing engineering themselves through hands-on creative investigations, challenges, and design activities. Each class will result in a fun hands on engineering challenge project that will allow students to show their unique and creative perspectives. The goal of this course is to have students think/act like a scientist/engineer and create an exploratory learning-centered environment of discovery, wonder, and problem-solving. Students who were enrolled in this class 1st semester should NOT sign up again.</p>	<p>Lady Lions Leadership This is a course for female students that is focused on becoming a leader in our Leesvillage Community! We will be building personal leadership as well as self esteem and individual goal setting. Other skills include assertive communication and motivation, team building, encouraging diversity, upstander practice, and elaborating on character strengths. This course will meet in the classroom and use activities to empower the young women of Leesville to flex their leadership muscles in many ways! Students who were enrolled in this class 1st semester should NOT sign up again.</p>
<p>Speech and Debate If you like to argue, this class is for you! In this course you will learn how to be respectful but effective public speakers! You will work as a team to prepare, and debate several interesting topics. We will spend the first week learning how to speak to an audience using words that are not only persuasive but convincing. This will prepare you for the debates we will have during this semester. Students who were enrolled in this class 1st semester should NOT sign up again.</p>	<p>Hands on Science Explore different areas science through experiments, experiences, building models, and other hands on activities.</p>	<p>Scientific Method In this enrichment class students will research, experiment, and present a project by using the scientific method. Students will be provided with the opportunity to pick a scientific question of their interest, carry out an experiment to come up with conclusion(s) to their scientific question. Students who were enrolled in this class 1st semester should NOT sign up again.</p>
<p>Current Events & Culture Studies Do you want to learn more about what's going on in the world? Whether it's political issues, environmental studies, or cultural observations, we will use technology to research and learn more about the world today!</p>	<p>Principles of Choreography During this FLEX time dancers will learn, explore, and experiment with multiple choreographic styles and tools. You will have the opportunity to work with other dancers to create numerous short pieces. At the end of the semester we will have a showing for all parents to come and enjoy what you have created! Students who were enrolled in Ballet Basics 1st semester should NOT sign up for this class.</p>	<p>Rock Out! with Guitars and Strings Learn to play acoustic guitar, violin, viola, cello or bass.
