Exploring STEM Careers Camp

Science, Technology, Engineering, and Math is all around us. Why are STEM careers important and what do they look like? At this **FREE** week long mini camp, campers will take on the role as a STEM professional helping to solve a real-world problem. Campers conduct a hands-on lab project, meet and interact with experts from these fields, design and build a working prototype, and show off their prototypes at the Expo on the last day. 3D printers, modeling software, robotics and other technology may be available for campers to learn and use. **Transportation and lunch provided at no cost! Space is limited to 12 campers at each school location.**

Sign Up!

http://bit.ly/WCPSS_STEM_Camp

Application open March 1
until April 1

Camp made possible through a
grant from the Burroughs
Wellcome Fund and the Wake
County Public School System

Camp is open to rising 8th
grade students who plan to
attend either **Athens Drive HS,**
Apex Friendship HS, Enloe HS,
or Southeast Raleigh HS.

Camp will be held at each one of
the participating high schools
named above from 9AM - 1PM
June 22-26, 2020
