

# THE WEEKLY FLOW

Week of October 14, 2019

## Autumn

### Language Arts

- Students will continue to explore myths by reading "Medusa and Athena." Students will summarize the reading, determine the role of Medusa in the *Lightning Thief*, determine elements of mythology in the text and provide evidence, determine the theme and explain why myths still matter today. Students should continue to stay current in reading the *Lightning Thief*. There will be a final test on the novel.

### Math

- Monday students will take the Unit 1 Assessment on Area and surface area. Then students will begin Unit 2 on Ratios. Students will analyze contexts that are often expressed in terms of ratios, such as recipes, mixtures of different paint colors, constant speed (an association of time measurements with distance measurements), and uniform pricing (an association of item amounts with prices).

### Science

- Students will continue the unit on soil. The students have been creating interactive notebooks. We are requesting donations of glue sticks.

### Social Studies

- We will continue our unit on River Valley civilizations. There are no assessments this week. Wednesday will be Mrs. Lisenby's last day, she will be going out on maternity leave.

#### IMPORTANT DATES

OCTOBER 31 - WEATHER  
MAKE UP DAY

NOVEMBER 1 - TEACHER  
WORKDAY

*"Comets are  
BETTER  
than  
SIMPLY  
GOOD  
ENOUGH"*

To schedule a conference please email Ms. Ritter - [kritter@wcpss.net](mailto:kritter@wcpss.net)
