Early Childhood Education I Teacher Recommendation Course

Teachers,

We want our CTE Early Childhood Education Program here at Wakefield to set a positive image of our school, for our community. Our students go out into local schools and childcare facilities to personally work with children and Early Childhood Professionals. These students have expressed an interest in a career working with young children whether it be a teacher, pediatrician, social worker, therapist, etc. This program is great for all students that have a true desire to work with children.

Because we are preparing them to work in these fields it is very important that these students be responsible, trustworthy, self-starters. We also have a limited number of spaces, so information gathering is a process which takes some time.

I am asking each applicant to obtain two different teacher evaluations. If you are given this form, you are asked to provide information from an applying student. The form is provided for you and all information will remain confidential. After completing the form please put it in my mailbox. It should not go back to the student.

If you have any questions or concerns feel free to get with me by email, phone, or in person in room 2216.

Thank you for taking the time to fill out this evaluation.

Sincerely,
Davena Embree, MS
