

# Our 3rd Grade Classroom News

April

## Third Grade Website

### Reading & Writing

#### In reading and writing we will be...

starting a new unit on the study of water. We will be studying how water is used and conserved around the world through reading and investigating different types of texts. We will be writing a call to action for conserving water in our community.

### Math

#### We will be....

continuing our study of fractions. We will be drawing equivalent fractions using rectangular models and number lines. We will also be comparing fractions using models and number lines.

### Science/SS

#### **Social Studies**

We will be studying economics. We will specifically be studying how goods and services in our community help support the local economy.

#### **Science**

We will be launching our plant unit. We will be studying how plants grow and how different environmental factors impact plant growth.

### Calendar

**03/29-04/07** Spring Break
