

*"As soon as you walk into Centennial, you are welcomed by several teachers & staff members. I love how small Centennial is and the variety of electives you can take. There are also some fun events you can participate in, like dances and wolf rallies."*

— 8th Grader

*"I love Centennial because teachers are always willing to help you. The teachers will not judge you, they will help you be successful."*

— 8th grader

*"After careful consideration, choosing Centennial Campus Magnet Middle School was the best decision for our son. The incredible staff takes the time to understand each individual child. It is a community that fosters trust, creating a learning environment that allows the students to thrive."*

— Parent

*What Starts Here Changes Everything.*

## CENTENNIAL CAMPUS MAGNET MIDDLE

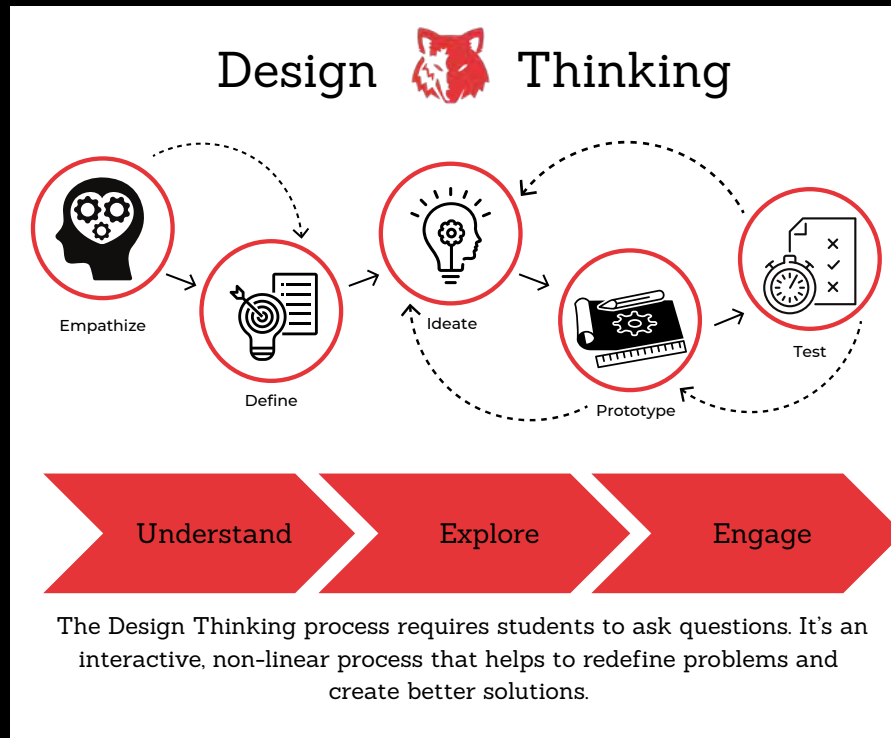

*“We have always valued our partners on NC State campus, and our recent grant award will allow us to deepen our partnership while bringing innovation in as our magnet theme. We will create a space for our middle school students to design and create, look at challenges and consider possible solutions, and make connections to the real world around them. Our staff is energized to teach our students how to think deeper and innovate through the design process.”*

— Kathryn Hutchinson, *Principal*

## CENTER FOR INNOVATION

The design thinking model serves as a tool for our students to access innovation through thinking more deeply, creatively, and critically.
