

The background of the poster features a collage of images related to STEM education. A large circular frame in the upper left shows a female teacher in a white lab coat leaning over a table, assisting three female students. One student is pointing at a project on the table. Another circular frame in the lower right shows two female students working together; one is holding a small object, possibly a piece of a model, and the other is looking at it with interest. The overall design uses a color palette of purple, green, and white, with large, overlapping circles framing the images and text.

# STEM ADVENTURES: DISCOVER, CREATE, AND INNOVATE

**14-18  
JULY  
2025**

## About This Event

Our annual Summer Summit returns, providing exposure to a variety of STEM categories. Girls, age 13+, are invited to spend a week exploring STEM with peers and mentors.
