Students registering for an IB course will be registered for the associated IB assessments. The State of North Carolina pays the costs for these assessments. Students who do not complete ALL assessment components for a subject will be required to reimburse the \$119 fee for the cost of that assessment. If the failure to complete an assessment changes a Student's status, they will also need to reimburse the \$172 fee for the Candidate registration fee. These fees will need to be cleared before a student will be allowed to participate in graduation.

Students who complete ALL assessment components for a subject are exempt from the teacher-made final exam. The earned grade(s) for non-examination IB Assessment(s) will serve as the final exam grade for the course and count 20% of the student's course grade.
