

# Online Teacher Web Presence

All faculty members should maintain some form of website that students/parents can access. You're free to use any service or site creation tool. Information included on this site could include copies of notes, links to class content, flipped video lessons, or even simply your Google Calendar. Keep it up to date!

Here are several free services that permit you to easily create a website...

WCPSS Google Sites (<http://sites.google.com>)

Wix (<http://www.wix.com>)

Weebly (<http://www.weebly.com>)

WCPSS Blackboard (<http://blackboard.wcpss.net>)

SchoolNotes (<http://www.schoolnotes.com>)

## What does a model teacher website feature?

- Teacher Contact Information
- Homework Calendar
- Rules/Expectations
- Grading Policies
- Required Student Materials
- Copies of notes or handouts
- Links to enrichment
- Video clips
