COVID-19 Picture Day Protocols

The health and safety of our customers and employees remains our top priority. We are closely monitoring updates from the CDC and guidance from government agencies and public health authorities regarding the COVID-19 situation. We will continue to adapt our policies to ensure the proper protocols are put in place based on the most up to date information.

What We're Doing

We are continually educating our staff on best practices including social distancing and sanitization of equipment.

- Employees who feel sick or have been in contact with someone who has tested positive for COVID – 19 are required to stay home.
- Employees will have their temperature taken and recorded each day prior to interaction with any staff members, students or customers.
- All employees are provided with a checklist of COVID-19 symptoms. They must alert a lead immediately if they experience any of these symptoms.
- Employees are required to maintain social distances during each photography session.
- Social distancing marks are to be placed 6 feet apart at each photography station.
- Employees have available hand sanitizer, sanitizing wipes, and masks at each station.
- Equipment and photographic props will be sanitized and disinfected multiple times throughout the day.
- All photographers have been trained and adhere to our long standing “no touch” posing policy.

How Can You Help?

Patience and understanding is key. As we all navigate these new experiences together, our goal is still to provide an amazing, safe picture day for your students! If you have any questions or concerns at any time, please do not hesitate to let us know. Thank you!
