

FARMINGTON WOODS FALL CAMPUS CLEAN UP

Saturday, October 27 from 9:30-11:00am.

It's that time of year to tidy up and get our fall garden growing! We all feel very lucky that Hurricane Florence only did minor damage to our area and our school campus. But there is still work that needs to be done. Can you help us clean up fallen branches and complete the distribution of mulch to needed areas?

It's also time to get the new fall and winter crops planted in the FWES Community Garden. Over 70lbs of produce has already been grown and donated to Dorcas Ministries Food Pantry in 2018! Families are welcome and should report to the inner courtyard to help with appropriate garden projects.

We are looking for volunteers to bring gloves, shovels, rakes, and wheelbarrows for these projects. If you happen to have any extra fall flowers to donate that we could plant around the front campus, we would appreciate it.

Please use this link to volunteer for the Fall Campus Clean Up.
