

## **FWES Community Garden**

### **Come help our garden grow!**

**Can you “ADOPT” the FWES  
Garden for one week?**

Over the summer the FWES Community Garden will need watering, light weeding, and harvesting each week. It is a great opportunity to learn and take action! It also helps provide fresh food to families who need it, as we donate everything to the Dorcas Ministries Food Bank.

**Last year we grew over 100 pounds of food together!**

We are looking for families who will:

- Help water all the beds (approx. 30 mins)
- Harvest on Monday and Thursdays
- Plant new crops and weed as needed.

For one week your family would be responsible for watering every day or every other day, depending on the weather. All work is flexible and can be done on your family’s schedule. You also help harvest on Mondays (anytime) and Thursdays at 9:30am during a weekly FWES open harvest. A Farmer Family week runs from Saturday to that following Friday. If you want to help but you are not able to take a full week or the harvest times aren’t convenient, we still would love your help. We will work with you.

If your family would like to be a Farmer Family, please use this link to sign up: <https://www.signupgenius.com/go/20f0944abae2da6fb6-fwes2>

**ALL FWES FAMILIES ARE WELCOME** to come water, harvest and help on Thursdays at 9:30am. Join our FWES garden team weighing and packaging up our harvest.

*As part of our grant with Katie’s Krops, we record and weigh all the food we grow and track our harvest on their website. We are also looking for a student and their family to serve as our 2020 Katie’s Krops Family. If you would like to learn more, please contact Amy Long or Liz Miller.*
