

Advanced Placement Registration Statement of Understanding for MCHS Students/Parents

Please Return to Student Services by April 13, 2018

As a prospective Advanced Placement **student** I am aware of and ascribe the following qualities to myself:

- I am self-motivated; wherein, I value scholarship in its own right. I exhibit a willingness to complete assignments and undertake daily engagement in classroom activities for practice and knowledge rather than simply seeking a grade or other forms of immediate gratification.
- I have the capacity to read various texts analytically and absorbingly in order to synthesize those texts into useful tools for understanding and thought building.
- I am self-disciplined and am able to measure and pace the necessary work load for the course. I am diligent about committing myself to engaging the course daily. I also understand that there will likely be assignments to complete over the summer.
- I understand the need to be resilient in the face of academic challenges greater than I have encountered before. I am able to meet these new challenges, frustrations, and struggles with the wherewithal to alter my habits to meet the higher standards.
- I have the capacity and diligence to recognize and produce quality work, and I understand that my work will be evaluated, not on effort or quantity of effort, but on quality alone.
- I understand the volume of information presented in AP courses, and my responsibility to independently recognize relationships within that information.
- I can focus and appreciate the serious academic environment of the course by eliminating distractions and treating my peers as fellow scholars who will be important to my learning and understanding. I also understand focus in an AP course includes my ability for introspection to evaluate my understanding and intellectual needs.
- I will be my own advocate, seeking to solve my own problems and utilizing my own intellectual courage to discuss difficulties with my instructor.
- I will commit myself to the AP class and my work, regardless of which semester I may be enrolled in it, and what other extra-curricular activities I may be involved in at the time.

All students must check the MCHS Website for AP SUMMER ASSIGNMENTS prior to the beginning of Summer 2018.

Completing this form does not guarantee enrollment in an AP Course; that is determined by availability within the schedule.

I have read the above qualities, and I attest to my commitment to represent myself in the above fashion in any AP course I take. I understand the last day to drop any AP course is Friday, June 8, 2018.

List ALL AP Courses you are signing up for: _____
