Family Code Name (families need to create their own code- like a password/log in code- the Family Code Name will be used to maintain confidentiality of families- as the waitlist order will be shared in a document and families can locate their status on the waitlist by knowing their ID Code- but it would not be evident to others- an example of a Family Code might be: your house number/pet name 105Max or your car/grandmother's name hondajoanne) *
