For the 2020-2021 school year, ACES will be continuing the “BYOD” (Bring Your Own Device) program. Students have the option to bring a personal internet enabled device to use for instructional purposes in the classroom. In order to bring a device, students must have a “BYOD Contract” on file in the office. While any device that can connect to our BYOD wireless network may be used, we have found small laptops and chromebooks work best, as well as some tablets. While we don’t recommend a specific device, the specifications WCPSS looks for when buying chromebooks is a 32GB SSD, 4GB RAM, 11” touchscreen. Students will not need to bring devices the first day of school.
